PROFESSIONAL SUMMARY

Recent Computer Science graduate with hands-on experience in Python, Machine Learning, Deep Learning, NLP, LLMs, LangChain, and AI application development. Eager to contribute to AI-driven projects while expanding my knowledge of Agentic AI, automation, and cloud technologies in a challenging environment.

EDUCATION

Bachelor of Engineering, Computer Science and Engineering — CGPA: 8.42 / 10 Coimbatore, India
Dr. N.G.P Institute of Technology

HSC — 90.5% | **SSLC — 79.6%**
Venkatalakshmi Matriculation Higher Secondary School

PROFESSIONAL EXPERIENCE

Junior Software Developer — Fuzionest Private Limited Jan 2026 – Jun 2026

- Developed and integrated backend APIs for web and mobile applications, supporting application functionality and data communication.
- Developed mobile application features using Flutter, contributing to the frontend and backend integration.
- Built AI-powered voice agents using ElevenLabs for automated voice-based interactions and workflows.
- Developed a Telegram bot to automate task management and team communication workflows.
- Started as a 3-month intern and transitioned to a full-time Junior Software Developer role for the subsequent 3 months.

INTERNSHIP EXPERIENCE

Artificial Intelligence Intern — Edufyi Tech Solutions Mar 2025 – May 2025

- Built a machine learning model to identify unusual patterns in data, applicable to fraud detection and system-error monitoring use cases.
- Strengthened core AI/ML concepts through applied, real-time project work under mentorship.

Artificial Intelligence Intern — Novitech Sep 2025 – Oct 2025

- Completed a 30-day AI internship, gaining hands-on experience in building and applying AI solutions.
- Worked on practical AI tasks under expert guidance, strengthening problem-solving skills.

PROJECTS

Network Anomaly & DDoS Detection System 2025

- Developed a machine learning-based system to detect network anomalies and classify network traffic as DDoS or BENIGN using statistical network traffic features.

- Implemented Random Forest and SVM models with an ensemble approach, along with a Flask-based dashboard for CSV upload, threat-level analysis, and prediction results.

Tech Stack: Python, Machine Learning, Random Forest, SVM, Scikit-learn, Flask, Pandas, NumPy, Joblib, HTML, CSS.

Medbot — AI Health Guidance Chatbot Hackathon, 2024

- An AI-driven chatbot that delivers personalized health suggestions for breast cancer, PCOD, and stress based on natural-language user input.
- Uses Retrieval-Augmented Generation (RAG) to ground responses in relevant health information rather than relying purely on model recall.

Tech Stack: Python, Artificial Intelligence, RAG,FAISS

AI SmartCRM — AI-Powered CRM Copilot 2026

- Built an LLM-powered CRM assistant that converts natural-language queries into database-backed insights and CRM actions without requiring SQL.
- Implemented an AI agent workflow using Qwen2.5-72B, FastAPI, typed CRM tools, and SQLite for entity resolution, grounded responses, and auditable CRM updates.

Tech Stack: Python, LLM, FastAPI, React, SQLite, AI Agents, REST API

PUBLICATIONS & CONFERENCE PAPERS

GreenMark: A Reward-Based Urban Greening System with Plant Monitoring and Carbon Credit Certification IEEE ICESCS 2025

- **Venue:** Presented the GreenMark project at IEEE ICESCS 2025, held at Hindusthan Institute of Technology, Coimbatore, showcasing an innovative approach to sustainable urban development.
- **Contribution:** Proposed an AI- based urban greening solution that integrates plant-health monitoring, QR- and GPS-enabled sapling tracking, and carbon-credit certification. The system encourages tree planting and maintenance through reward mechanisms while supporting environmental sustainability and carbon absorption tracking.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, HTML, CSS, Java
AI/ML Libraries & Frameworks: TensorFlow, PyTorch, LangChain, NumPy, Pandas, OpenCV,NLP
Backend & Tools: Node.js, Express.js, Git, GitHub, Postman, VS Code, Google Colab, Excel, PowerBI, Hugging face
Databases: MySQL, MongoDB, MySQL Workbench, XAMPP

CERTIFICATIONS & COURSES

- Ethical Hacking — NPTEL (Elite), 2024
- Cloud Computing — NPTEL (Elite + Silver), 2024
- Specialization Course in Blockchain, 2024–2025
- Salesforce — Innovalley Works, 2025
- 30-Day Masterclass in Artificial Intelligence — NoviTech R&D Private Limited, 2025
